I'll only
monitor
you until
then.

Whether
you'd be
ready or
not.

It's
going
to take
3 weeks
until the
next large
group of
delivers
comes
in.

Hello Abyss

17

Survival
Training

Nor
will you
receive
any help.

You won't
find other
delivers
there.

It'll be
good
training.

Well,
you can
say that
we're ap-
proaching
the Abyss
outermost
wall.

Deeper
further
than the
Sacker
Camp.

Where
are
you
taking
us?

Soon
we're getting
pretty far
from the
Abyss
vertical
shaft...

- Day 5 -

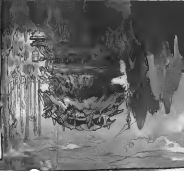

It feels like
its been
ages
since we
were
here...

Something
...

Anything
beyond the
desertion line
is a total
darkness...

On my
first
day, I
couldn't
help but
cry...

And
another
returned
after
guiding
me half-
way...

Well, now
getting
through
survival
training...

You
guys are
amazing

It's
actually
been ten
days

or
starve

is it
true?

...Rinraku
even is
well...
Hearing
the end,
when I got
separated
from that...

I felt so
hopeless...

TN: That thing where everybody brings one random foodstuff and just mix it all up in one ugly pot of medley junk.

Your sense of time will go mad.

What does that mean?

?

Is how the old dying goes.

"Don't stay in the deep, if you don't want to kill those who wait for you."

Although only those with peculiar tastes like us white whistles would want to live there.

Of course it is, I said it myself.

So that number's true...!

might sound exaggerated, saying that people who wait for you will die.

The saying I mentioned before.

It's particularly scary from the surface layer onwards.

Once, I intended to only spend a couple of weeks down there.

When I returned to the surface, a few months had passed instead.

On the surface a few months.

Five years down two months.

the time
did not
pass that
rough for
Lycia
like we
expect

It
might
even
turn
out
that

?

The
problem
is that

we can't
even
approximate
to what
extent
will that
malicious
would
manifest
itself on
sixth and
seventh
layers.

While this
may not
apply
to you
since you
don't
plan to
return...

Doesn't seem

don't you
think that
is a more
possibile
for her
being alive
and well?

Even
though
it's been
ten years
on the
surface...
if it's
only
been
a few
years on
the
bottom

So
some of
them are
staying
there

The
fifth
layer,
that of
Coryene
is the
final layer
that
human
life can
survive
a return
trip from

To
avoid
bumping
into
other
White
studies

Why
is
that?

Well,
even so,
you
really
shouldn't
stick
around
when
you're
already
five
layers
deep

I wonder
who wrote
that letter

Speaking
of Lyle,
this bit
caught my
interest

Ah,
that
reminds
me.

It may look worn out...

but to my surprise, even I couldn't destroy it.

Huh...

It's an unknown relic.

The paper used is not just any paper.

The ancient rather glyphs, not a single complex word... not to mention it's written in large, crude letters.

Both of you, follow me.

All right.

Who exactly Lyra's writing with at the bottom of the Joyas

So I wonder.

Little chance people would often conveyed to us

What Lyra's writing with at the bottom of the Joyas

Mother's artifact...

It'll be a good alternative to that incinerator of yours.

I'll teach you how to use it.

It's not surprising she has complex expression on her face.

Well, this junk has a tendency to misfire even back then.

Since it's Lyra we're talking about, she's probably already found a new weapon.

it's fine

However, isn't it odd of Owen

No...

Third Layer

The Great Fault

★ Ottobasu ★

Large amphibious animals that live in the bottom of the second layer, around the borders of the Inverted Forest.

These are non-native species that were brought from the abroad and miraculously assimilated to the life within Aiyee. In the country of origin they were the kings of the jungle waterfront. However, as they could not rival the predators dominating the circumference of the Aiyee, they were driven off to the farthest parts of the Inverted Forest where the force field is exceedingly thin.

Their imposing look is partly because of their original habitat.

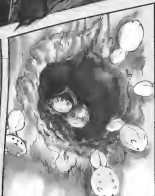

Though they still got driven off, they are much larger than it originally was. They're capable of swallowing humans whole; they are omnivorous, so let's not approach one too closely.

They have a thick layer of fat and skin, so they're not usually fit for consumption. However, if proper care and preparation is possible, then one would be enough to treat about 200 people with its delicious meat.

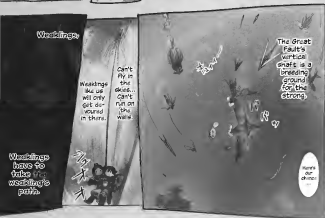

Maruko of the Observation Base says "my favorite is meat under the bumps".

Are you telling me

It took you two full hours to wake up.

No matter how much you struggle, you always fall unconscious about 10 minutes after waking.

After you shoot it.

During that period, I couldn't wake you up even though I hit you and dumped water on you.

You can use it if you want to get like this, though.

That's right.

Otherwise, this end of your journey

will be certain.

When the time comes, there's no quarter.

No matter what they are.

No matter the opponent.

I wonder how she'll be eaten.

Just see what happens when you leave a helpless odd stone in the trap for two hours.

Don't hesitate to use it thoroughly.

What?

Fourth Layer

The Cup of Giants

Still... what an incredibly humid place.

It's fine, just hot water.

おほほ

The cups of Dandelions... the Dandelions were one the reason for that.

Also the scenery causes that because the light from the force field gets refracted by the water.

I see...

How strange...

More...

We want data to go that far...

Even when I think of it in my dreams, it was never been humid.

but then the plants underneath it will compete for the place to grow, completely changing the scenery

It's said that the Kagurou's old winners were every 2000 years or so,

You know, the part that supports the Dandelions is a different plant

うん

うん

The

My voice

.....

Let's
go!

Reg.

No matter
how it
presents
itself,

we're still
within the
bowels of
the Abyss.

You
might
not
believe
it, but
I'm sure
you're
still
around.

Also...

We have
to find
a good
place
to
camp!

Were it to
manifest
in her body

she'll
probably...

It's truly
a curse.

The fourth
layer's strain
makes you
bleed out of
every hole
your body...

I will protect her,
no matter what.

I will...

Not even 10
percent of

There
were

I heard
that it'll
look like
that equi-

It was
just-
about.

For a while
now I've been
feeling a
strange
presence...

It's
nothing...
sorry.

There are
lots of
things
out...

What's
wrong?

Oh...

It's got
terrifyingly
good ears.
I wonder if it
can understand
our speech.

However...
now it's
staying
still.

When we
talk, it
always
moves.

A crea-

What
is it?

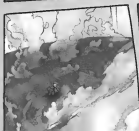

Don't tell
me, a

Wow!
I haven't
been able
to hear it
even once.

But, it's
near.

It may
possibly be
closer... maybe
not, just a
whole lot closer.

All
right.

Crazy...
It might
be a good
idea to
get away
from here.

Reg, run!
It's a

us!?

I was told
that the

NERITANTAN

Small animals with a flat appearance, that live inside roots within walls on the third layer.

Inside the hollowed-out roots that the Neritantan lives in, one can always find leaves (as brittle as cookies), flowers, and even fruits.

They have a symbiotic relationship with the trees they live in, as they spread their seeds via feces.

It's been reported their flat bodies are shaped by their ribs, which can deform and elongate depending on the situation by breathing in air from their surroundings.

Because their diet consists of fruits, their meat is delicious and is suitable for many dishes.

* They protect themselves from predators by bunching up together.

she still didn't give up on her adventure

Even in that situation,

she had the spirit to go on.

It makes a huge difference in the amount of things that she can accomplish with her arm still attached.

I know.

she's Black.

I'm Red.

I haven't introduced ourselves!

Oh, Black.

I've been listening to everything you've said ever since you entered my hunting grounds.

It's the first time people like you came here, after all.

Yeah, but right now...

If I
examined
right...

either the
loss of
humility,
or death.

Have you
heard what
are the
strains
of climbing
from the
sixth
layer?

Yes.

No matter
what I tried,
she couldn't
recover.

That's
right.

We survived
the sixth
layer's curse,
but she
became

Her
personality's
gone, along
with her
intelligence.

Just like
the name
implies, she
is a hollow
husk of her
former self.

Just
thinking
of it sends
shivers
down
your spine
doesn't it?

If you
were to
repeat
that on
the sixth
layer...

About
that
trick you
did today
when you
climbed
with that
extended
arm.

There, there, you're special too, Mitty

Don't expect the same to happen to you

I'm an exception among exceptions

Nhuh~

You... you're not affected at all!

But... but, Katakuri!

When returning from the death layer

I'm the very proof that it's possible to retain humanity

And there's me

Tough to get from their side, death is a much better alternative to End Fata~

When delving discover a miracle, they put it to death and collect their belongings

That reminds me.

He's stupid.

I'm sorry

I see... do you want a death substitution?

Getting ahead, even if it's out of pity isn't a bad deal, don't you think?

Resolving myself is a huge risk by itself.

Rock Trout, preferably as large as possible

Choose the ones with clearly divided colors on their back.

You'll find them on the Western side.

Don't go to the middle region. Tama-chan is there.

Yellow-shining grass

Pick the ones that smell somewhat better.

Bambear infected with watershrooms

Catch alive the ones with the most shrooms growing out of them.

Feral Hammerbeak eggs

Don't take more than one from each nest. The freshly laid ones are good.

Usually, she doesn't get along with visitors.

She doesn't mean bad, anyway.

It's
just so
floaty.

You can
move it
just by

Then ...

... it.

Then what
causes
the curse?

Just
like
this
cloth.

It will
weep
if you
touch it.

It's not
like
that.

So if you
touch it,
you'll get
the Abyss' curse?

So...

That's the
true nature
of the Abyss'
curse.

There's
nowhere to
escape
from it.

As its filling
the entire

it could be
called the
lifeline of

Also,
the
force
field
is

But...
Mmmh,
there's no
curse in
your habitat,
is there?

Yes.

Finding
that place
was really
difficult.

It can
predict
the
future.

It's not like
Tansuguchi
has good
instincts.

is a place
filled by
waves of
death

going
against
predators
that can
see the
future.

To
challenge
the
bottom
of the
abyss
would
also
mean

Dark
Am,
isn't
it?

... !!

The
stronger
the
force field,
the
stronger
it also
becomes.

No lies.
You can't
do much if
you can't
see it,
so I'm
wondering
myself

**Then...
how do
delvers
deal with
them...!?**

But,
there's one
thing that
I do know

des isn't it
it can read
your mind
it will also
read your
movements

Every
predator
of the deep
can see
the field.

Are't you
going to
rescue our
guest over
there?

What
good
thing

**Don't
!!**

**Wha... a
child...!?
That's
ridiculous...**

Helping
from his
hugger,
it looks
like he got
ambushed
on the way
to back

A black
whistle

**Don't
come
any
closer
!!**

Of
course

What are you doing?

Your reply?

That way, you'll exterminate lama-chan and rescue him.

Understood!

Listen, you'd better remember. No matter what, do as I say.

Hm...

Well, it's fine I guess.

All right, then I'll show you

the world as I see it.

What Are you serious?!

!?

with all you've got.

Firstly, look up

だにー

Don't
ever
let go

Have you
got a grip
on it?

woah

What
you're
grabbing
right now
is its
force-
field-
sensing
organ.

Unless you
separate
your mind
from your
actions,
you won't
even be
able to
touch it.

It's its
lifeline.

it'll go
for the
tail without
any fancy
tricks

Now
that it's
confused.

Its
fate
is now
sealed.

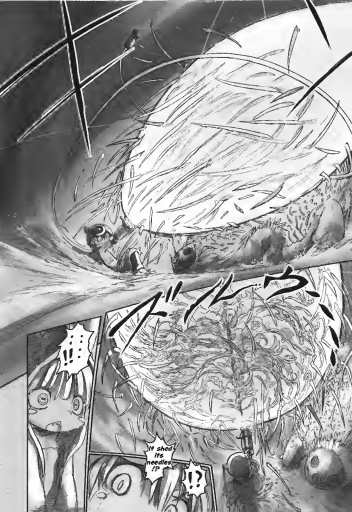

Beat
it to
the
pulp.

How
dare
you

do
that
to
Riko
!!!

Noooo
...!

ドゥー

It shed its needles!?

!?

The steam is!

Ku!

It ran away...!?

Well done.

Don't
spare time
of yours
to return
quickly!

It shed more
than 80% of
its needles, it
won't be able
to hunt here
anymore.

Don't
approach
him

U...
el.

.....
/

Now
that
Tama-
chan's
gone,

Deliver
a mes-
sage for
me...?

Can
you

What
are
you

**the most
dangerous
thing to
us is the
delver!**

Well

you don't
say anything
about me,
so it's fine

Sorry

notices
your
connection
with the
place, won't
it be
bad?

Instead,
will that
Bleichen
Orphanage
of yours
be fine?
If that
guy...

I wish
you'd come
with us
to the
bottom
of the
Abyss.

But still,
it was
amazing,
Natschi!

I have
some-
thing to
ask of
you.

.....

Next
we'll
explore

Continuing
our
adventure

I've
addressed it
to the
most
reliable
person
there.

It's
fine.

As I
expected,
it's not
an easy
thing
to say.

Umm...

Ooh!
You
can
ask
me
any-
thing!!

Don't
hold
back!

please
...

Then
...

Kill
Mitty
for
me.

But it doesn't seem like he's poisoned...

His navel looks sore...

What's with this sudden, "I'm going to sleep for 2 hours" thing...

He's like this because he fired that, huh...

.....

I've finally found it, Mitty...

Finally...

How nice...

I'd like to go there...

If it's the bottom of this very earth...

How nice...

I'd like to go there...

I'd like to go there...

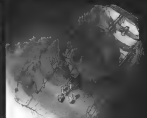

I'd like to go there...

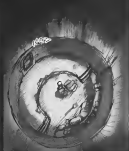

I'd like to go there...

I'd like to go there...

Wait
for your
turn
Nansachi!
That's
no need
to be
repulsive.

How
nice...
Someday,
the 600...

Bringing
back many
people
to the
edge
here...
Even
children
from
overseas
as well.

Don't
worry!
I'll
take
care
of
you!

I want
to
go
back
soon...

Maybe
so...
Maybe...

What
about
the
other
side?

What
about
the
other
side?

Now
and
then
they
are
delivered
but
they
are
not
delivered
yet...
when
they
are
delivered
the
burden
is
just
from
a
human
point
of
view...

It's
not
the
same
as
the
other
side...
I
want
to
go
back
soon...

What
about
the
other
side?

A treasure
that's
precious
to me.

I've
finally
found...

Don't
take her
from me...

Please...

Let
me
just
return
to
Korocori...

Please...

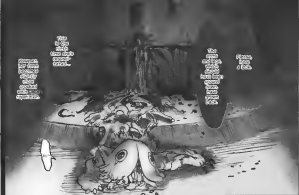

Go...
if I
stop
being
human...

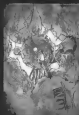

Go
daddy...
it's
nobody's
business...

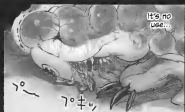

There
must
be some
way...

There
must
be...

There
was an
artifact
that he
called that

...disappeared
the *Solence*
Returning
Light

Shortly
afterwards,
the sur-
rounding ar-
guments
to nothing

Anything
lost
by it just
disappears,
as if it
never
existed...

That's
the only
place
that never
remained

One of
Milly's
eyes was
not by it

If you
use
that...
Mitty
can...

W-wait!!

It's
like the
reincarnation
...?

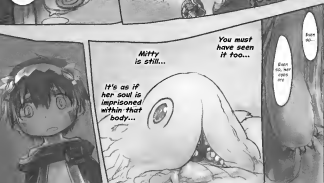

No matter
how I tried,
I couldn't
make her
communicate
with me.

They're
just
reflexes.

She
responds
to people
calling
her, and
disob...

are you
completely
sure that
Mitty has
lost her
humanity?

Mitty...

Mitty
is still...

You must
have seen
it too...

It's as if
her soul is
imprisoned
within that
body...

Even
so...

Even
so, her
eyes are

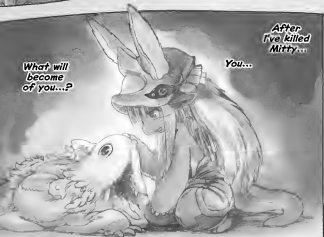

*Just now...
looked
terribly
faint...*

*You, who
seemed so
reliable...*

Mamechi...

*What will
become
of you...?*

You...

*After
I've killed
Mitty...*

☆ Tamaugachi ☆

A large beast that inhabits the fourth layer's Kazura Assembly.

It is herbivorous and eats algae growing in Dainakazura, however it is ferociously temperamental. Just a single one of these has robbed over 100 seasoned delvers of life and limb.

The needles throughout its body are laced with deadly poison, and it has an incredible foresight-like intuition, while also being able to instantly unleash a fearsome amount of strength at any given moment, even on wet ground. Because it is capable of inflicting fatal wounds on any creature that comes across it, none of the other wildlife which remains on the fourth layer can be said to be its equal.

Although the Kazura Assembly is an important passage route for delvers, the Tamaugachi considers the entire 1 km diameter of it to be its territory. Use the utmost caution, and pray for safe passage through the fourth layer.

Danger Level: ★★★★★ (Irrational)

It's actually an animal called a Tokugahi, but since it messes up your treasures, ("Tama"), and your life, ("Tamauchi"), delvers started calling it a "Tamaugachi" instead.

Those two holes—the force field-sensing organ is its only weak point, but since it can read your movements, you'll never be able to touch it. Separate your mind from your actions, and attack while its guard is down.

Nanachi's...

reason
to live.

Everything...

Let me cook!

Hi... Nanachi!

It's going to be another one of Nanachi's dishes!

I'll cook the Bismarck's meat.

I'll make one, packed full of energy.

Let's have a meal.

Just go back to your sect!

You really suck at cooking.

Need some help?

From what I've seen, Nanachi just mixes a whole bunch...

I have to bring out the individual ingredients...

The...

so I need to do this...

...something just got crushed.

Wait... as I remove the ingredients first...

I think this is how...

There's also the smell...

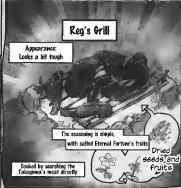

...The meat is quite dark.

It's going to be fine...

Now did Riko do this, again...

Calm down...

Is she ever unhappy, being with you ...?

Is Mitty ...

tell me about one thing.

Nene-chi ...

Then, is killing her really necessary, right?

About how since she's living such a gentle life.

I know what you're trying to say.

Prove what you say, that's not the case ...

Sooner or later ...

...

but if you stab her, she can still feel pain and can also cry.

She can survive even without food.

You know, Mitty.

If that happens.

Mitty will be alone, forever.

Sooner or later, I will eventually die in some way.

This
is my
final
chance.

Req.

To
finally...
release
her
...

For
all
eter-
nity.

Her
soul
will
continue
being
trapped.

She
can't
even
scream.

Having
her
suffer
forever
is some-
thing
that I
cannot
accept.

Even if
those
are just
her re-
flexes.

Pro-
mise
me.

Nana-
shi...

I
under-
stand.

...

Don't
end your
own life
...

Even
without
Mitty
...

Even
after
that!

you
know I
still have
to take
care of
Reo

...I
won't.

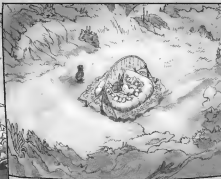

Please
...

An op-
portunity
this con-
venient
...

will
never
come
again.

ば、

Take
your
rest

Please

No

もい

again

Your
soul

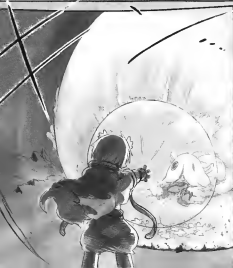

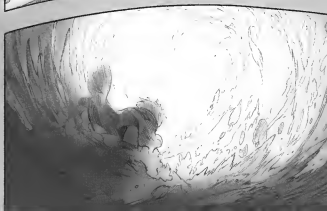

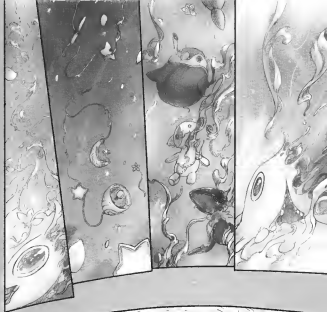

70 = 4

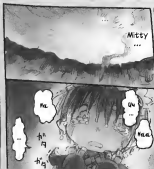

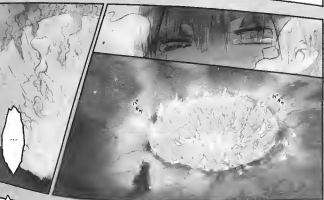

Do it.

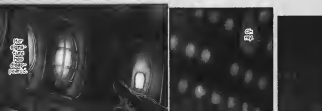

Reg.

I have
to offer
you my
gratitude.

I wish
to meet
you
again.

By all
means,

You've
finally
accomplished it.

Con-
gratu-
lations,
Nansachi.
